Timeline

Council adopted a regulatory by-law review work plan on January 23, 2023 identifying the Animal Control By-law and Hen Pilot Program for review in 2023

March 4, 2024, a public meeting is held to receive feedback on the proposed By-law

January 22, 2024, staff presented Report CPS-2023-055 to Council

April 8, 2024, staff will report back to Council on feedback received for Council's decision on the proposed By-law

Background – Animal Control By-law

- The Animal Control By-law was adopted in 2000, and establishes rules and regulations for responsible pet ownership, dog licensing, and prohibited animals
- In 2020, an amendment was made to the By-law to permit the keeping of hens
- During the development of the proposed By-law staff have:
 - created an administrative framework that includes regulations to ensure the safety of animals and the public
 - taken a consistent approach with the regulations and general licensing provisions set out in the Town's regulatory and general licensing by-laws
 - completed a comprehensive review of best practices of surrounding municipalities' animal control by-laws

Background (cont'd)

- incorporated relevant legislation from *the Municipal Act*, *Dog Owner's Liability Act* and *Provincial Animal Welfare Services Act (PAWS)*
- consulted with staff from the Orangeville Branch of the Ontario Society for the Prevention and Cruelty to Animals (OSPCA) and Community Services staff

Background - Hen Permit By-law

- The Hen Permit By-law was adopted in 2020, establishing regulations for the registration and keeping of hens
- The pilot program was implemented for a three (3) year trial period which ended December 31, 2023
- Prior to the expiry of the program, the By-law was amended such that any permit issued with an expiry date of December 31, 2023, would be extended to May 31, 2024
- This extension would allow for the review of the pilot program to be completed in conjunction with the Animal Control By-law

Background (cont'd)

- The Hen Permit Registration pilot program provided residents with the ability to obtain a permit to keep up to a maximum of three (3) hens on a residential lot, containing a single detached dwelling or a semi-detached dwelling, provided that all By-law requirements were met and a yearly fee of \$110 was paid
- The number of permits issued during the three (3) year pilot program period were:

Hen Permit Registration	2021	2022	2023
Permits Issued	3	5	2

Background (cont'd)

- The number of complaints received during the pilot program period were:

Hen Permit Registration	2021	2022	2023
Complaints (non-registered hen coop)	0	1	0
Complaints (registered hen coop)	1	0	0

Hen Permit Registration Pilot Program Summary

- The three (3) year pilot program period revealed that:
 - there was initial interest by residents, however, there was a minimal number of permits issued
 - the two (2) complaints submitted were minor in nature
- As a result, staff are recommending that:
 - due to the costs associated with the program's administration, that the licensing framework be discontinued
 - that the regulations set out in the Hen Permit By-law be incorporated into the Animal Control By-law, with the exception of the registration process and fee component

Report #: CPS-2023-055

Meeting Date: 2024-01-22

Recommendations

That report CPS-2023-055, Animal Control By-law, be received;

And that a public meeting be held in Q1 or Q2 of 2024, to receive feedback and comments on the proposed Animal Control By-law;

And that staff report back to Council after the public meeting on the comments and feedback received.

Background and Analysis

The Regulatory By-law Work Plan adopted by Council at its meeting held on January 23, 2023, includes a review of the Town's Animal Control By-law.

The current Animal Control By-law was adopted in 2000 and establishes rules and regulations for responsible pet ownership, dog licensing, and prohibited animals. The By-law has since been amended to capture additional prohibited animals, include a licensing fee schedule and permit the keeping of hens.

During the development of the proposed Animal Control By-law (Attachment #1), staff have taken into consideration and incorporated:

- an administrative framework that creates regulations to ensure the safety of animals and the public;
- a consistent approach with the regulations and general licensing provisions set out in the Town's regulatory and general licensing by-laws;
- a comprehensive review of best practices of surrounding municipality's animal control by-laws;

- relevant legislation such as the *Municipal Act*, *Dog Owner's Liability Act* and *Provincial Animal Welfare Services Act*.

Update - Hen Permit Trial Program

On November 9, 2020, Council adopted Hen Permit By-law 2020-061 to provide residents with the ability to keep a maximum of three (3) hens on a residential lot containing a single detached dwelling or a semi-detached dwelling. The three (3) year trial program began January 1, 2021, and permits have been issued to residents that met the criteria requirements set out in the By-law, registered with the Town and paid the yearly permit fee of \$110.00.

The number of permits issued during the three (3) year trial program period were:

Hen Permit Registration	2021	2022	2023
Permits Issued	3	5	2

The number of complaints received during this period in relation to hen coops were:

Hen Permit Registration	2021	2022	2023
Complaints (non-registered hen coop)	0	1	0
Complaints (registered hen coop)	1	0	0

Although residents showed initial interest in the implementation of a hen permit trial program, there was limited uptake during the three (3) year period. Due to the low volume of applicants and the costs associated with the administration of the program, staff are of the opinion that it is not practical to continue with the licensing framework.

As part of the Animal Control By-law review process, staff are recommending that the proposed By-law include the regulations set out in the Hen Permit By-law, with the exception of the permit process requirements, and repeal By-law 2020-061. This would enable residents to continue to keep hens in accordance with the regulations, however the registration process and fee component would be removed.

Standards of Care – Animals

The *Provincial Animal Welfare Services Act* (PAWS) came into effect on January 1, 2020. Protection under this legislation includes requirements for basic standards of care for animals, including:

- adequate food, water, medical attention, and resting and sleeping areas;
- the care necessary for the animal's general welfare;
- adequate space to enable the animal to move naturally, exercise, sanitary conditions, ventilation, light and protection from the elements.

PAWS also includes requirements for standards of care for dogs kept outdoors, which encompasses general care, shelters, tethers, and housing pens.

Standards of care for animals are clearly set out in PAWS and concerns regarding animals (a pet, farm animal, or wild animal in captivity) that are in distress or are being neglected can be reported by the public to the animal protection call centre, which is open 24 hours a day, seven days a week.

Provincial animal welfare inspectors provide enforcement across Ontario by carrying out inspections, conducting investigations, responding to animal welfare concerns, as well as providing outreach and education on animal care best practices. To ensure animals remain protected, the inspectors also work, where appropriate, with police, veterinarians and other agencies.

At this time, standards of care for animals have not been included in the proposed By-law as these matters are regulated, investigated, and enforced by the Province through the *Provincial Animal Welfare Services Act*.

Dangerous Dogs

The *Dog Owner's Liability Act* (DOLA) contains rules for dog owners in Ontario. DOLA states that the owner of a dog is liable for damages resulting from a bite or attack by the dog on another person or domestic animal.

A proceeding may be commenced in the Ontario Court of Justice against a dog owner if it is alleged that the dog has:

- bitten or attacked a person or domestic animal;
- behaved in a manner that poses a menace to the safety of persons or domestic animals; or
- the owner did not exercise reasonable precautions to prevent the dog from biting, attacking or behaving in a manner that poses a menace to the safety of persons or domestic animals.

DOLA also sets out provisions to make an interim order requiring the owner to take measures for more effective control of the dog after an attack, which mirrors the vicious dog provisions set out in our current By-law.

At this time, regulations for vicious dogs and muzzle orders have not been included in the proposed By-law, as staff can utilize DOLA for these types of matters, eliminating any hearings through the Dog Designation Appeal Committee of Council, as all matters would be heard in the Ontario Court of Justice.

Justice for Animals in Service Act, or Quanto's Law

Criminal Code 445.01

(Ontario Provincial Police)

(1) Every one commits an offence who, wilfully and without lawful excuse, kills, maims, wounds, poisons or injures...a service animal

Provincial Animal Welfare Services Act

(Animal Welfare Services)

17 No person shall cause harm, or attempt to cause harm, to an animal that works with peace officers in the execution of their duties, or to a service animal, whether or not the animal is working at the time of the harm.

What Visual Indicators?

AODA 80.45(4)

- (a) The animal can be **readily identified** as one that is **being used by the person for reasons relating to the person's disability**, as a result of **visual indicators** such as the vest or harness worn by the animal; or
- (b) The person provides **documentation** from one of the following regulated health professionals confirming that the person requires the animal for **reasons relating to the disability**

By-law needs to establish a working standard encompassing all kinds of working service dogs – trained by organizations or independently – wearing custom or Amazon purchased vests

What Document?

AODA 80.45(4)

- (a) The animal can be readily identified as one that is being used by the person for reasons relating to the person's disability, as a result of visual indicators such as the vest or harness worn by the animal; or*
- (b) The person provides documentation from one of the following regulated health professionals confirming that the person requires the animal for reasons relating to the disability*

Service animals do not have to be trained or certified by a recognized disability-related organization – Ontario Human Rights Commission, “Policy on Ableism and Discrimination Based on Disability”

Example:

Letter provided to our family by service dog agency after Orangeville Transit drivers refused to accept vest alone as ‘visual indicator’

Dogs and Service Dogs

Ontario Human Rights Commission, Policy on Ableism and Discrimination Based on Disability

“People with disabilities who use service animals to assist them with disability-related needs (such as anxiety) are also protected under the definition of ‘disability’ in **section 10 of the Code**....Service providers and others who receive such [medical] documentation **should not use their own assumptions and observations to second-guess this verification.**”

By-law Definitions

- “Dog” means a domestic dog;
- “Service Animal” means an **animal** described in subsection 80.45(4) of O. Reg. 191/11, under the Accessibility for Ontarians with Disabilities Act, 2005, S.O. 2005, c. 11;
- “Animal” means any member of the animal kingdom, other than a human;

By-law must develop a guideline or decision hierarchy for service dogs – when is it a service dog or plain old dog to a By-law Officer? Separating a service dog from owner risks a potential human rights complaint. Especially in the case of seizures or impoundment due to being treated “being at large.”

Microchips and Licenses

There are many accredited Assistance Dog organizations or independent trainers placing assistance dogs with clients in Orangeville. Each has a different way of retaining ownership or they may even do a client ownership transfer.

“Owner” includes

- (a) Any person who owns, **keeps**, or has custody of an **animal** and where the **owner** is a minor, the person responsible for the custody of the minor*
- (b) A person who is temporarily the **keeper** of the **animal***

By-law needs a guideline or decision hierarchy for determining owner by records:

Microchip or Dog Licensing? What if owner of microchip is different from dog license owner? For which scenarios?

Exceptions To The Rule

6.3 Sections 6.1 and 6.2 of this By-law shall not apply to a:

(b) **Service animal** while under the control of its handler and actively engaged in its trained duties;

6.2 A **dog** is deemed to be running at large if found in any place other than the property of the **owner** of the **dog** and the **dog** is not on a **leash** and under the control of a person capable of handling the **dog** when it is on property other than that of the **owner**, unless prior consent is given by the person owning the property on which the **dog** is found.

Possible Interpretations

(Coordinate Clauses or Independent)

- Service Dogs can go Leash-free with a trained handler on public or other private property if AODA requirements satisfied
- Service Dogs can never be considered “running at large” by By-law Officers if AODA requirements satisfied
- By-law Officer must satisfy burden of establishing service dog fits AODA requirements

Subject: Letter of Support for the Inclusion of the Hen Pilot Program in the
Animal Control By-law

Dear Mayor Post and Esteemed Members of the Town Council,

I hope this letter finds you well. Unfortunately, due to prior commitments, I am unable to attend tonight's Council meeting in person. However, I wanted to express my strong support for the inclusion of the Hen Pilot Program in the Animal Control By-law, which is up for consideration on the agenda.

As a participant in the pilot program, my family and I have experienced numerous benefits that I believe have not only enriched our lives but have also positively contributed to our community. The program has allowed my children to actively engage in collecting eggs, providing them with invaluable lessons in husbandry and animal care. Witnessing the entire food cycle firsthand has proven to be an educational and enriching experience for them.

Moreover, the program has fostered a sense of community among my neighbors. Asking them to care for our chickens in our absence has not only strengthened our relationships but has also created a cooperative and supportive environment. The composting of chicken waste has significantly enhanced our gardens, promoting sustainability and environmental responsibility.

In light of the rising cost of groceries and eggs, the program has provided our family with a practical and cost-effective solution. Even with just one hen, along with the cost of a permit, we estimate saving approximately \$100 annually on fresh free-range eggs. In an era where every penny counts, this financial relief has been greatly appreciated.

I would like to express my gratitude to the previous council and specifically to Grant Peters for their foresight and support in implementing the pilot project.

The positive impact it has had on our lives is immeasurable. I believe that by passing this program into the Animal Control By-law, the current council has the opportunity to positively influence more families in our community.

In light of potential food insecurity challenges that may affect more families, I strongly encourage the council to pass the Hen Pilot Program into the Animal Control By-law. This action will not only ensure the program's continuity but also encourage more families to participate, fostering a sense of self-sufficiency and community resilience.

Thank you for your time and consideration. I appreciate your dedication to the well-being of our community and trust that you will make the decision that best serves the interests of all residents.

Sincerely,

A. Max Waters

Good day

Where as Canada's birds are in trouble and some species have declined by over 90%. Cats, both pet and feral, cause approximately 200 million bird deaths a year. We have a responsibility to mitigate loss and protect our birds, as they are a key part of a healthy environment.

We also have a responsibility to keep our cats safe and healthy. The feral cat population is growing rapidly and shelters can't keep pace. Twice as many cats are in shelters as dogs. Outdoor cats are exposed to a variety of threats, including diseases (e.g., feline leukemia), parasites, vehicle collisions, and fights with wildlife and other cats.

Dogs are not allowed to roam. Cats should not be roaming either.

Please consider this addition.

Yours truly,

Bryan Smith
